Paper Title

MentorConnect: A Modular Web Framework Supporting Inclusive Mentorship and Knowledge Continuity

Abstract

Mentorship plays a significant role in motivating students towards success in their academic and career decisions, but the unavailability of a structured mentoring setting may limit access of qualified mentors. This paper proposes MentorConnect, a web-based mentoring system that allows role based access, interaction between mentees and mentors in a secure and scalable system. The suggested system is created on the basis of Python, Django, and Django Channels with SQLite as the storage backend. Its features are secure authentication and role-based access control, student profiling and academic activity management, and realtime interaction based on web socket-based messaging with file transfer.

It is also used to control the session management, academic tracking, notifications and automated reminders to enhance coordination, and activity logging, to enhance traceability and system tracking. The system is considered to be validated and tested, as it allows more accessible mentorship, better communication, and better organization in comparison to the traditional informal process of mentoring. Additional improvements can involve the use of smart mentor recommendations, analytics, and specialized support on the mobile application in the future.

Submission Questions Response

1. Conflict of interest

The authors declare no conflict of interest and all authors are aware of this submission. In case of any conflict submitting author will be responsible.

Agreement accepted

2. Status of using third-party material in your article.

Third party content is defined as any material within the manuscript which is not your original work. Third party content may consist of text passages, figures, photos, screenshots, etc. and be found in many places such as but not limited to - the Internet, print and online books and articles, theses, annual reports, conference material, photocopies, course packages, translations, visually impaired readers. In particular, pay close attention to sensitive images such as identifiable persons or human research participants, recognisable architecture, logos, brands/trademarks, and images from online photo libraries. Please refer to Springer Nature Guide to Copyright and Permissions for further guidance. You are responsible for clearing the rights for third party content under your publishing agreement. Please confirm if your manuscript contains any third-party content?

I am not using third-party material for which formal permission is required.

3. Certificate of originality

This is to certify that my submitted research paper is an outcome of my research work. I have duly acknowledged all the sources from which the ideas and extracts have been taken. The submitted paper is free from plagiarism and has not been submitted elsewhere for publication. I am aware that the publisher/conference organizer can reject it at any publication stage if it is found to be plagiarized or machine-generated (AI-Generated).

Agreement accepted

4. Corresponding Author's Contact number

Please provide the Contact number of the Corresponding Author, including the Country code.

7774004882

5. Country Name

Please provide the Name of the country where most authors belong.

India

6. Authors Contributions

Please specify individual authors' contributions in the research as recommended by the Committee on Publication Ethics (COPE).

(e.g. , study conception and design: Author_1, Author_2; data collection: Author_2; analysis and interpretation of results: Author_1, Author_2, Author_3; draft manuscript preparation: Author_2. Author_3. All authors reviewed the results and approved the final version of the manuscript.)

An author name can appear multiple times, and each author name must appear at least once. For single authors, use the following wording:

The author confirms sole responsibility for the following: study conception and design, data collection, analysis and interpretation of results, and manuscript preparation.

Draft manuscript preparation: Author_1, Author_2, Author_3, Author_4; Author_5, Author_6, Author_7 reviewed the results and approved the final version of the manuscript.

7. Conference Rules and Guidelines

*I am agree with Conference Rules and Guidelines given at
https://scrs.in/conference/bida2026/page/Conference_Rules_and_Guidelines*

Agreement accepted
